Mez-Starck Young Investigator Prize – MS-YIP

The Dr. Barbara Mez-Starck Foundation announces the Mez-Starck Young Investigator Prize MS-YIP for PhD students and PostDocs up to two years after obtaining their PhD degree. This prize is worth 5.000 EUR and shall support early career scientists in their research in the field of sustainable research based on structures and spectra in physics and chemistry. The prize money will be given to the awardees as a contribution to cover basic and project costs for, e.g., small equipment or travel expenses.

- The proposal with at most three pages shall be prepared using the Mez-Starck template provided on the web page <https://www.uni-ulm.de/chemieinformationssysteme/> and submitted until June 26, 2023 via email to axel.gross@uni-ulm.de. In the proposal, the current and the planned research of the applicant in the field of sustainable research based on structures and spectra in physics and chemistry and the utilization of the prize money (for, e.g., travels to conference, short research stays at home and abroad, lab or computer equipment, etc.) shall be sketched. The selection of the awardees will be done by the Board of Trustees of the Dr. Barbara Mez-Starck Foundation. Up to two prize winners will be awarded.
